

## Engraving and Graphic Design Specialist

Andax Industries is seeking an individual with the ability to manipulate digital design files and operate wide format digital printers and engraving machinery. Successful candidates will have, or be able to quickly learn the following characteristics, skills and abilities:

### Duties

- Handle customer art requests or file submissions and optimize them for engraving
- Operate 2 large format Roland printers and 2 Epilog laser engravers
- Work with sales to keep track of incoming engraving orders
- Save, organize, update, and maintain art files within appropriate network locations
- Produce orders accurately in a timely manner
- Provide occasional support to marketing team including editing and ordering marketing materials

### Skills/Abilities

- Basic understanding of graphic design principals including layout, typography, color, balance, composition
- Proficient in Corel and Adobe Suite – Illustrator, Photoshop, InDesign
- Strong computer and file organization skills
- Attention to detail
- Previous engraving machinery experience a plus, but not required
- Excellent aesthetic judgment
- Ability to prioritize, managing multiple projects & deadlines
- Read and understand measurements
- Positive attitude, proactive and self-motivated.
- Knowledge of materials and printing processes
- Understanding of RGB, CMYK, HEX and Pantone color systems
- Photography skills a plus
- Able to lift 50 lb
- Work on-site in Saint Marys, Kansas (this is not a remote position)

### Benefits

- Competitive wages
- Paid time off and holidays
- Health, dental & other insurance

Email resume to [jobs@andax.com](mailto:jobs@andax.com) or apply at 602 W Palmer St, Saint Marys, KS 666536.
